

How to care for your new Deck Gear garment – March 2022

We want to make sure you get the most wear out of your new garments, so we recommend you follow our easy wash care guide below:

- Wash at 30° and with similar colours.
- Do not bleach.
- Do not tumble dry. Put the garment on a hanger and hang in a well ventilated area.
- Do not dry clean. Chemicals used in dry cleaning can damage the print on your garment
- To prolong the print quality, we recommend not ironing over the design print. Instead, turn the garment inside out and iron on the reverse side.
- Stain removal. (eg Coffee , wine etc) Place the stained area in water for 60 minutes or longer. Then wash as suggested above. You may have to repeat this procedure if the stain is not removed. More stubborn stains may require the use of a stain removal product.
